

Hair Extension Maintenance & Agreement – Keratin Hair Extensions

Client's Name \_\_\_\_\_ Date of Service \_\_\_\_\_

Initial each Instruction

\_\_\_1 - Do not shampoo for 24 hours. Always wash your hair with your head up or back like in a shower and not tilted forward. Never put conditioner on your bonds, keep 3" away from scalp. Never dry with a scrubbing action, instead wrap with a towel to absorb water. Always dry bonds to prevent breakdown.

\_\_\_2 - Run your fingers between your bonds every day to keep extensions from tangling together. It is very important to be gentle with your hair extensions. They are attached to small amounts of your own hair. While hair extensions themselves will not harm your hair, rough handling of them will pull your hair and may cause damage.

\_\_\_3 - Brush extensions 2-3 times a day, or the amount recommended by your stylist, with the recommended hair extension brush. Start in the nape and work your way up. Always pull extensions into a covered hair tie or braid while sleeping to prevent tangling and pulling. Never go to bed with wet hair. If you sleep restlessly or you have very fine hair in the front it is recommended that you sleep with a soft head band on. This protects your delicate front hair.

\_\_\_4 - Make a follow-up appointment for 4-6 weeks after your initial service. Notify stylist/salon immediately if you have any problems such as tangling or excessive loss of extension hair.

\_\_\_5 - Curling irons, flat irons and hot rollers may be used, but must be kept an adequate distance from the bonds.

\_\_\_6 - Activities taking place in a constant, damp environment such as aerobics, steam baths or saunas may lessen the longevity of the extensions. Dry your bonds as soon as possible after any of these activities.

\_\_\_7 - I have received instructions about how to take care of my hair extensions understand them.

\_\_\_8 - Seawater and pools can cause bond break down due to the constant damp environment. To minimize these effects, wet hair completely in a shower and apply a conditioner to the ends. After swimming, shampoo and blow-dry the bonds to prevent bond breakdown.

\_\_\_9 - Some extension loss and shedding is normal and to be expected. Expect to lose 1-4 extensions a month. (Contact your stylist if you are losing more than this) A full head application covers approximately one third of the head. You can expect to see a small quantity of naturally released hairs trapped in the attachments after some time. This is normal and should not be interpreted as hairs pulled of the scalp by the extensions themselves. Daily brushing close to the scalp and finger separation of the applied strands will avoid matting in this area.

\_\_\_10 - There are no refunds for hair extension applications. Deposits may not be refundable; each hair extension application is different, discuss any issues with your hair extensionist. I have read, initialed and understood my hair extension care instructions. If I do not follow the above instructions, I understand the stylist and salon where the hair extensions were applied will not be held responsible.
