A Message from Vision Hair Extensions

Thank you for your interest in our products. We are committed to supplying our customers with a wide range of high quality keratin, pre-tipped hair extensions to fit most budgets. Every strand of hair Vision sells is 100% Human Remy Hair. No matter which brand you choose, you will receive the highest quality available as compared to other competitively priced extensions. To help you with hair selection we have put together a chart to compare hair extension qualities and textures - see page 3.

Online ordering recommended

Vision recommends placing your orders online. To keep our overhead down and to be able to keep our prices as low as possible, Vision has elected to be primarily an internet company. Our phones are staffed Monday-Friday 10am to 4pm EST. You are welcome to call in an order or ask questions, but it is likely that you will need to leave a message or place your order on our Voice Mail. We will return your call as soon as possible.

Professional Application

Vision Hair Extensions recommends professional application only. Hair extensions require practice to properly apply and licensed hair stylists have the experience of working with hair even if they have not applied extensions previously. We recommend all stylists become familiar with the application of hair extensions. We have application instructions, hair extension information and help on our website for the convenience of stylists.

EUROSO.CAP .

HAIR EXTENSION

Euro So.Cap is a leader in the field of 100% natural Remy Hair Extension manufacturing. Euro So.Cap has chosen to use only and exclusively pure Indian hair since it's characteristics and structural properties perfectly compliment European Hair. Before importing it from India Euro So.Cap.'s hair undergoes a series of strict quality control procedures. Specialized technicians carry out a thorough inspection. This is essential to achieve an impeccable finished product. Euro So.Cap. has held a distinguished presence in the hair extension field for over 40 years and is considered one of the highest quality products on the market today.

Euro So.Cap. chooses to utilize only and exclusively Remy quality hair. This quality preserves the hair cuticle, keeping hair scales all turned in the same direction. This reduces any chance of tangling - giving you beautiful hair, full of body.

On the top of each lock of hair, Euro So.Cap. attaches a thin sheet of keratin which, being distinct from silicones and waxes, blends perfectly with the hair itself. You will find one of the strongest holds available with Euro So.Cap. keratin. With proper application there will be little or no shedding or loss of hair extensions.

Euro So.Cap. Color Chart

Euro So.Cap. colors run slightly different than many other companies. Refer to the "Hair Color Selection Guide", pg 14-15, for a helpful guideline in choosing colors.

**Coloring or perming hair extensions is sometimes possible but is not recommended. Most human hair extensions have been chemically processed. All except the darkest colors have been lightened. The colors used to create the wide range of hair extension colors may react with any new chemical process. Vision Hair Extensions gives no warranties against damages to hair that has been chemically processed by the consumer.*

Sticker Hair by Euro So.Cap.

Euro So.Cap's Sticker Hair Extensions use the same high quality Indian hair as in their trusted fusion extensions. This is the only extension system that lets you carry out a complete set of extensions on only 20 minutes.

Sticker Hair Extensions can be reused many times just by replacing it's bi-adhesive tape that has be specifically conceived by Euro So.Cap. for the hair. With no specific equipment needed, the entire process couldn't be easier.

Each package contains 6 Sticker Hair Extensions and are 16"-18" in length. An average full head will need about 5-6 packs. They will last 3-6 weeks before reapplication is needed.

Removal of Sticker Hair is just as easy as the application with only a few drops of the remover solution needed.

Q Indian Temple Hair

Indian Temple hair is considered by many to be the most beautiful hair in the world. It is fine in texture and comes with a natural body wave that is the perfect texture. It comes from India's temples where Indian (Hindu) women donate their hair to show their gratitude to God, "a ritual called tonsuring." Vision purchases Q Indian Temple hair directly from the source in India who painstakingly cleans and colors it into our 6 beautiful colors, (color #1B is virgin because it is the natural color and has never been touched). Vision considers Q Indian temple hair to be our finest hair.

Hair Color Selection Guide

This hair color selection guide is meant to be helpful in selecting between the different hair colors and matching them to your client's hair. Vision highly recommends purchasing color rings. The Vision Color Ring matches Vision Select, Vision Economy, Q Indian Temple and Highlight Strands. Euro So.Cap's colors run differently than the other hair we carry and have their own color ring. Whether you have printed this catalogue or you are viewing it on a computer monitor be aware that what you are seeing can vary from the actual color. This is to be used as a guide only

Sample strands can be purchased online to help with selection

Important: Hair extension colors do not run exactly along the same level system as hair color products. Don't order according to the hair color level system.
