Shipping Policy

Orders received by 4:00pm Eastern Standard Time will be shipped the same day.

Shipping takes place Monday-Friday.

Weekends and Holidays should not be counted when calculating shipping time.

If you need to have your order on a specific day it's best to receive the order 1-2 days before, to guarantee you will have it on time.

You can view our shipping chart on our website.

Any delays caused by weather are not subject to reimbursement

Special Order items will take extra time to ship (usually 5 days) please allow for this.

Free Shipping is available for US orders only

Call us if you have any shipping questions.

Refund and Exchange Policy

Refunds and exchanges are available only for unused and unaltered products. Once a product has been used or package damaged no refunds or exchanges will be given. Because of the variables in application and care of hair extensions it is not possible to guarantee how long extensions will last. Vision recommends practicing application techniques and following all care instructions for best results.

Returns: All full price hair extensions, adhesives, kits and hair care products can be accepted as a return within 30 days after receipt of order provided they are unused or altered and in their original packaging. All returns are subject to a 15% restocking fee. No restocking fee will be deducted if return credit is used for future orders.

Please E-mail vhe@visionhairextensions.com or call before returning any merchandise to receive a RMA #. Returns will not be processed without a Return Merchandise Authorization Number (RMA#) which must be written on the outside of the package.

A \$10 shipping fee may be deducted on returned items if free shipping was used for the original order.

Clearance items and Special Order items are not returnable.

Replacement and Exchange: If the hair is not what was expected or products are damaged during transit, call or e-mail within 15 working days from the date you received the goods. No restocking fees will be charged for exchanged or damaged items.

Prices are subject to change without notice

About Vision Hair Extensions

Vision Hair Extensions was started by me, Lynn Bogen, in 2006. I became a professional hairstylist in 1981 and worked in the beautiful state New Hampshire. In 2001 I attended a "Women's Hair Replacement" workshop. Returning home I started advertising my new service. Much to my surprise more people asked about hair extensions than anything else! Hmmm, let's figure out this hair extension thing. I added keratin to weft hair and became a "Hair Extensionist." A few years later I became certified in Great Lengths, SoCap USA and Euro SoCap.

Back problems forced an early retirement from my career but not my love for hair extensions. So began Vision Hair Extensions. The business started by ordering extensions directly from India, soon after we became certified retailers of 8o8 by the Hair Shop, Euro SoCap, and Donna Bella.

Michelle, my daughter, has been working in the business since the beginning and has a thorough knowledge of the workings of hair extensions. We specialize in personal service and strive to help our customers with color matching, amount and length advice. We consider our customers to be our friends and partners. Because we are a small business we are able to accomplish this and more.

Located in Wilmington, NC, Vision specializes in keratin tipped (fusion), and tape-in extensions. We also carry I-tipped (micro-ring), clip-ins and weft extensions. Most of our hair can be shipped out the same day so you can get it fast! Give us a call if you are looking for a friendly and knowledgeable hair extension supplier for all your hair extension needs.

Sincerely,
Lynn Bogen

Tape-in Hair Extensions

- 12", 14", 16", 18" & 22" lengths
- Straight texture, may wave slightly after wash
- 10 individual wefts - 1 1/2" wide
- Single strands are available (18" only)
- 100% Pure Human Remy Hair
- Lasts 4 - 6 months
(reapply every 6-8 weeks)

- Reusable with replacement tape
- Every pack of Donna Bella tape-in extensions includes 12 Ultra Hold replacement tapes.
- Color selections - visit: visionhairextensions.com to view colors or, better yet, order a color ring for best color matching.

These seamless extensions are made from 100% human remy hair, which means they look and feel just like your own. Tape-ins will not cause any damage to your hair, and they are easily applied without the use of tools, beads, clips, or chemicals. Donna Bella tape-in extensions are gently removed using a tape-in remover.

How many tape-ins do you need? The average person needs 3-5 packs for a full head of extensions. For fine hair that is past shoulder length 3 packs may be enough. Thicker hair will require more packs. The trick is to have enough extensions to match the thickness of your clients hair. If you are just looking for volume and not length fewer extensions will be needed. Don't forget about single sided hair extension tape, which is ideal if you want less thick strands.

Donna Bella Kera-Link (keratin fusion)

Donna Bella's Kera-Link Hair Extensions are bonded to the hair using a strand by strand (fusion) method. This allows for 360 degrees of natural hair movement for its wearers. This method of installation is perfect for all hairdos, whether you wear your hair up or down.

Long Lasting: Donna Bella's 100% Remy Kera-Link Hair Extensions last 3-6 months and can be reused 1-2 times. The bonds can be removed and

the keratin fused hair extensions can be reinstalled with new keratin rebonds so your long locks can last.

Price: Kera-Link Human Hair Extensions are an exceptional price for the quality and quantity of hair that is received. Each hair package includes 20 strands of hair. Plus, each strand of hair is 100% Remy human hair that has never been treated or processed beyond

its coloring and moisturizing. This gives you top quality hair at the most competitive price.

No Slippage: Because the Kera-Link bonds are fused to your own natural hair, there is no chance of the keratin fusion extensions falling out. This is the perfect solution for those who want to have a new hairdo but don't want the stress of a possible hair extension malfunction.

Natural: Kera-Link Hair Extensions are attached to the hair using a strand-by-strand method. Unlike the beaded and tape-in hair extension methods, the keratin bonds are fused directly to the strands of the client's hair. This allows for natural looking and feeling hair that you will adore.

KERATIP

Q Indian Temple Keratin Tipped

Q stands for Quality

Indian Temple hair is considered by many to be the most beautiful hair in the world. These real Indian hair extensions are fine in texture and comes with a natural body wave that is the perfect texture. It comes from India's temples where

Indian (Hindu) women donate their hair to show their gratitude to God, "a ritual called tonsuring."

Vision purchases Q Indian Temple hair directly from the source in India who painstakingly cleans and colors it into our 12 beautiful colors,
(hair lengths run 1" - 2" longer than described)
(color #1B is virgin because it is the natural color and has never been touched).

- 25 strands per pack
- 1g strand weight
- Tipped with a flat keratin bond, fusion application
- Cuticle correct remy hair
- Hair has a natural body wave when washed
- Single drawn - natural taper
- Wear natural, curl or straighten
- Lengths: 14", 18" and 22"
- **Natural curly is available in color #1B - #2, 22" length**

Economy Keratin Hair Extensions

Economy Hair Extensions by Vision are the least expensive hair extensions we sell. If you are looking 100% human hair at the best prices you have come to the right place. Don't get us wrong, a cheap price doesn't mean bad quality. Economy hair extensions are made of 100% human Asian hair. They are 18 inches long with straight texture. 18 inches is the most popular length for hair extensions. We do not recommend economy hair for full head use. They are better for highlights and to mix in with other hair extensions. These Asian hair extensions are not 100% remy and may tangle if a full head is applied. We recommend Vision Select brand if you are looking for remy hair at a good price.

I-Tip hair extensions - Use with Micro Rings

I-tip hair extensions are perfect if you do not want to use heat, (keratin fusion), to apply hair extensions. I-tip application is sometimes called “cold fusion” but it is not the same as the expensive cold fusion machines, (\$4,000 and up), which uses sound waves to melt the keratin.

I-tips are great for just a few highlight strands. There's no need for electricity to apply these micro ring fusion hair extensions so they are perfect for outdoor events, team colors, charity events, and parties. Full head applications can also be achieved. Vision Hair Extensions carries Donna Bella I-link, I-tip fantasy highlights in packs of 5 strands, grizzly feather I-tips and 808 I-tips (professional sales only)

10 Strands per pack

If you have never been a fan of I-tip /micro-ring style hair extensions you will be now. In the past I-tip extensions were slow to put in and tended to slip unless crimped perfectly. Removal was hard because the ring sometimes bent wrong and wouldn't come out. Sometimes the keratin tip will become soft and was hard to reuse. Now comes a new system!

Euro SoCap's new "Flat Ring-On Hair Extensions" solves all of those problems.

The flat shaped tip fits perfectly in a micro-ring. (grooved micro-ring)

Flat shape holds onto the client's hair securely for no slipping.

Flat shape is wider for better cover - no more stringy looking extensions.

Easy application. Just one squeeze with pliers is enough.

No crimping required.

Easy to move up. Because the micro-ring is not crimped it can simply be reopened, slid up and reapplied.

The tip is made of a long lasting micro-mesh rather than keratin. Stays hard for 1-3 reapplications.

Hair lasts 3-6 months with proper maintenance.

18" & 22" lengths

(22" is special order)

10 pieces per pack
